

# Taking A Bite Out of Data: How Food Diversity Is Shaping Our City

Fahim Hassan

Open Data Day: March 2, 2019

# *What*

Explore the variety of restaurants. Map their locations.  
Analyze data on language from Census 2006, 2011, 2016.  
Visualize findings side by side.

# *Why*

Have a better understanding of cultural diversity.  
Enhance the sense of belonging.

# *How*

- Web Scraping with Python or R
- Link different datasets
- Data visualization with CartoDB, MapBox or Tableau

# Let's team up!

What other data should we explore?  
Share your ideas
